

Join thousands of women in engineering

**ENGINEERING
COLLEGE**

Join many of the women pioneering through the engineering industry and creating opportunities for themselves in a dynamic environment.

On **Tuesday 07th March**, The Engineering College is opening its doors and inviting young people from across Merseyside to attend a dynamic and inspiring open day.

You will have the opportunity to meet some key local employers and understand what it's really like to work in an industry as diverse as engineering.

Engineering varies from traditional fabrication and welding in shipbuilding and construction through to medical engineering, manufacturing and aerospace.

An opportunity to get stuck in, but not necessarily get your hands dirty.
An opportunity to progress into higher education and gain experience alongside industry-recognised qualifications.

WHY GIRLS ARE LEADING THE WAY

During 2016, in STEM related subjects, 71.3% of girls achieved A*-C compared to 62.6% of boys. While Engineering remains a predominantly male subject, the number of girls sitting GCSE Engineering rose by 24% in 2016!

TUESDAY 07th MARCH 2017, 1:00PM - 7:00PM

If you would like to register your interest in attending this Open Day, please email o.weston@theengineeringcollege.co.uk by 4:30pm on Tuesday 28th February.
